SUMMARY

Software Developer with 2 years of experience designing and developing web-based applications using C#, ASP.NET MVC/Core, SQL Server, JavaScript, HTML, CSS, and Bootstrap. Proven ability to deliver end-to-end software solutions, including a public transport bus tracking system for eThekwini Municipality and the Diski360 sports management platform. Skilled in database design, system optimization, cloud technologies, and responsive web development, with a strong focus on building scalable and user-friendly applications.

WORK EXPERIENCE

Junior C# Developer - XET Group - *October 2023 - October 2024*

Bus Tracking System – eThekwini Municipality

- Developed a comprehensive bus tracking system for **eThekwini Municipality** to enhance public transportation services and improve commuter experience.
- Designed and implemented a back-office web portal and a Flutter mobile application featuring real-time GPS tracking, using **C#, ASP.NET MVC, HTML, JavaScript, SQL Server, and Dart**.

- Improved system performance through database optimization, debugging, testing, and continuous maintenance to ensure reliability and scalability.
- Collaborated with cross-functional teams on code reviews, technical documentation, and solution design to maintain high development standards.
- Delivered cost-effective technology solutions that reduced operational expenses by **20%** and increased overall efficiency by **25%**.

Founder & Software Developer | Diski360 Sports Management System - *October 2024-Present*

- Designed and developed Diski360, a web-based sports management platform for football clubs, leagues, players, and administrators.
- Built a responsive web application using **C#, ASP.NET MVC/Core, SQL Server, JavaScript, HTML, CSS, and Bootstrap**, ensuring seamless access across desktop, tablet, and mobile devices.
- Developed modules for player registration, team management, fixture scheduling, match reporting, league standings, and performance statistics.
- Designed and implemented database architecture, authentication systems, role-based access control, and administrative dashboards.
- Managed the complete software development lifecycle independently, including requirements gathering, system design, development, testing, deployment, and maintenance.
- Improved operational efficiency by digitizing manual league and club management processes and providing centralized access to competition data.

EDUCATION

Diploma in ICT: Business Analysis - *January 2020 - December 2022*

School: Durban University of Technology

Grade 12/Matric - *January 2019 - December 2019*

School: Zombizwe High School

SKILLS & CERTIFICATIONS

Technical Skills: C#, ASP.NET MVC, ASP.NET Core, .NET Framework, SQL Server, Entity Framework, HTML5, CSS3, Bootstrap, JavaScript, REST APIs, Responsive Web Design, Git/GitHub, Database Design & Optimization, IIS Deployment, Azure Cloud Services, Software Testing & Debugging

Languages: English, IsiZulu, SiSwati

Certifications: Microsoft Certified: Azure AI Fundamentals (AI-900)

Soft Skills: Strong Communication, Team Collaboration, Problem-Solving, Analytical Thinking, Attention to Detail, Adaptability, Time Management, Project Ownership, Quick Learner
